Tips to Obtaining the Best Headshot:

Be yourself, but achieve the best version of you. Making an effort on how you look will create the best first impression, stay true to your personality and business sector.

I recommend you to wear:

Solid, vibrant, and middle tone colors.

*The clothing should be simple.
no stripes or patterns.*

Dark long sleeves produce the best dramatic headshot.

If you have blue eyes a blue shirt or blouse will bring out the color of your eyes.

What To Wear

Men

For corporate/professional shots, bring a few dress shirts (white, light blue, yellow etc.) and a few ties, all freshly pressed.

Shave right before appointment.

If you color your hair, make sure roots are not visible. It is extremely difficult and cost-prohibitive to correct.

Women

For corporate/professional shots, bring solid color middle tone or dark pantsuit/skirt and a few long sleeve shirts (light color) that work under the jacket, all freshly pressed.

If you color your hair, make sure roots are not visible. It is extremely difficult and cost-prohibitive to correct.

Remove any unwanted facial hair.

If you wear earrings, simple studs are recommended.

Make-up and hair stylist recommended.

All additional travel and transportation expenses (traveling outside of a 25 mile radius of Kirkland WA, tolls, parking, entrance fees, logging, etc) will be added to the final cost.

Note: Group discounts only apply to headshot sessions completed on the same day, or however many consecutive days needed to fit in the entire group. Prices and packages may be subject to change at any time.
